Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a method of delivering and increasing the systemic bioavailability of a hormone administered by inhalation, classified in class 424 subclass 45 and class 514, subclasses 3 and 177 for example.
- II. Claims 12-18, drawn to a method for making aerodynamically light particles for administration of a hormone to the respiratory tract by inhalation, classified in class 424 subclass 45 and class 514, subclasses 3 and 177 for example.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

Specie election

This application contains claims directed to the following patentably distinct species of the claimed invention: different hormones useful in the methods herein.

Claims 1, 4-12, 15-18 are generic to a plurality of disclosed patentably distinct species comprising different hormones. The claims as presented contain such vast multitude of “possibilities and permutations” for hormones that the search for all presents an undue burden on the office. As shown in the restriction requirement the different species are classified in different subclasses: 424 subclass 45 and class 514, subclasses 3 and 177 for example. Due to the

Art Unit: 1617

structural diversity in hormones encompassed by the claims, and corresponding diversity in classification, the search for all species is considered an undue burden on the office. Note that the search is not limited to patent files.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed hormone even though this requirement is traversed.

Applicant must elect one specific hormone commensurate with the elected invention in response to this office action.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that in order for the reply to this requirement to be complete it must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mojdeh Bahar whose telephone number is (703) 305-1007. The examiner can normally be reached on (703) 305-1007 from 8:30 a.m. to 6:30 p.m. Monday, Tuesday, Thursday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.
